THE NSLC ON BIOTECHNOLOGY IS LOOKING FOR TEAM ADVISORS FOR SUMMER 2019.

National Student Leadership Conference on Biotechnology

Since 1989, thousands of outstanding high school students have attended the NSLC to explore today's most exciting careers, develop essential leadership skills, and experience life on a college campus. The NSLC on Biotechnology is a 9-day conference providing talented high school students from around the world with hands-on biotechnology experience, opportunities to meet working professionals, and visits to biotechnology facilities. Under the guidance of their Team Advisors, these students will explore various fields in biotechnology, discuss ethical issues impacting the field, and participate in a variety of biotechnology lab experiences.

The Role of the Team Advisor

Team Advisors (TAs) act as facilitators, presenters, simulation monitors, and resident advisors. The job of a TA encompasses the role of a chaperone, teacher, mentor, and policy enforcer. As a TA, you will facilitate and supervise a group of 12-16 students. Many TAs will also lead activities, simulations, and lectures attended by all students. Working with your TA group is an amazing experience as you watch your students make friends for life and experience the world of Biotechnology in a personal way. This is a unique opportunity to serve as a mentor and role model for talented young students and share your passion for and knowledge of biotechnology. Team Advisors arrive on-site 5-6 days before students arrive in order to participate in orientation and training and stay for two or three 9-day sessions.

Requirements for Employment

Team Advisors must be current college students or recent college graduates with a background and interest in some discipline of biotechnology. The most qualified candidates will have participated in leadership programs, workshops, or classes and will have experience working at summer camps or with high school students in a position of leadership. The NSLC is looking for TAs who are interested in and have experience in a variety of fields including biotechnology, biology, bioengineering, etc.

Dates & Compensation

Team Advisors will be paid \$765 at the end of each 9-day session. The NSLC pays for room & board, as well as transportation to and from the conference. For more information, visit www.nslcleaders.org/jobs. **Applications are now being accepted.** In 2018, the NSLC on Biotechnology will be held on the campuses of the universities listed below.

Washington, D.C.

American University
