Penn State Forensic Science Graduate Open House

Join us for our open house for prospective master's students. Hear from our program director, faculty, and current students. Get your questions answered and see why Penn State's Forensic Science program is the right choice for you!

Penn State uses state-of-the-art crime laboratories and crime scene training facilities to teach students the fundamentals of crime scene investigation and reconstruction and the analysis of pattern, trace, and biological evidence through a holistic, crime-scene-to-courtroom approach.

Wednesday, November 8
6:30 p.m.–8:00 p.m. (EST)

Held via Zoom. Scan QR code to register.
