The Himalayan Blue Poppy Show

I took a year off from the Blue Poppy Show. They will return next year in March. It will most likely be the third weekend of March. The poppies are beautiful and well worth seeing, so mark your calendars and watch for more information at the beginning of next year.

The 3rd Annual Plant Sale

The third annual plant sale will be held the second weekend in June. Friday, June 9th from 11am-1pm and Saturday, June 10th from 9am-12pm. It is held in front of the conservatory. If you live in the area and want to add a new plant to your household while helping the Plant Biology Conservatory, please come by and see if there is something you just can’t live without.

The Epiphyte Tree

Thanks to all the donations over the last two years the epiphyte tree is close to completion. There are plants on the tree and if all goes well we should see some blooming orchids in a year or two. Your donations help us do some of the things like this tree that would have otherwise been impossible. Thank you.
