DST Unit “Plant Cell and Molecular Biology”

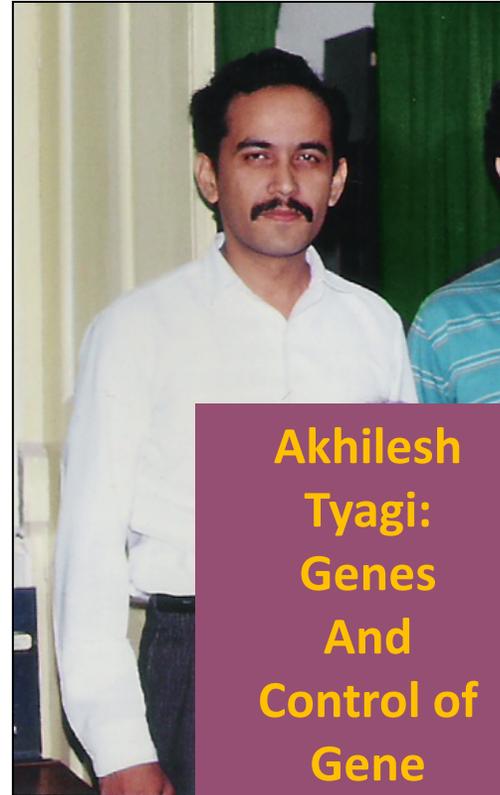

Three projects in SCM’s Lab in the 1980s are shown here—
two of them involved two of the authors (JK and AT)

SCM

Jitendra Khurana:
Photoreceptor(s) And
Photoperiodic
Control Of Flowering

Akhilesh
Tyagi:
Genes
And
Control of
Gene
Activity

Paramjit Khurana:
Tissue Culture
& Genetic
Engineering

A 2007 photo of SCM. Left to right: Nirmala Maheshwari, Satish Maheshwari, Sudhir Sopory, and Baishnab C. Tripathy. Here Nirmala was inviting Govindjee to come and join the group. So, he did: see the next photo. This photo may be used by others by citation to the Pareek et al. (2020) paper and this Supplementary Material. Source: Archives of G. Govindjee
