

FULL TIME OPPORTUNITIES

Velocity Professional Services Consultant

Program Overview:

The Velocity Professional Services Consultant (PSC) training program is designed to help new associates develop the skills and capabilities necessary to be successful Cerner Consultants. During Consultant training associates will gain an understanding of Cerner solutions and will learn the fundamental components of solution build, maintenance and testing.

Responsibilities:

PSCs are responsible for creating and maintaining professional relationships at the appropriate level between the Client and the Cerner project team members and effectively communicating status updates and project plans. PSCs spend a significant amount of time in a technical capacity, using Microsoft suite applications, designing and customizing the solution based on the Client's requirements. This is accomplished through assisting clients in implementing Cerner Solutions with a repeatable, practicable methodology bringing speed to value results. They often work side by side with clients on-site and may be required to travel to their client's location.

Upon satisfactory completion of training, Velocity Professional Services Consultants are typically placed in a professional services organization based upon business need.

Minimum Qualifications:

- US Work Authorization Required
- Ability to travel up to 20-80%
- Relocation to Cerner's World Headquarters in the Kansas City metropolitan area
- Interest and/or experience in the healthcare industry preferred
- Educational background in Business, Technology, or Healthcare field preferred

Must meet at least one of the following education requirements

- 3.0 or higher cumulative GPA and Bachelor's degree from an accredited institution
- 2.8 or higher cumulative GPA and Bachelor's degree from an accredited institution with 1 or more years of professional and applicable experience

Company Overview

Cerner is transforming health care by eliminating error, variance and waste for health care providers and consumers around the world. Our solutions optimize processes for health care organizations ranging from single-doctor practices to entire countries, for the pharmaceutical and medical device industries, and for the field of health care as a whole. Our solutions are licensed by more than 9,000 facilities worldwide.

Health care is too important to stay the same

We invite you to join us in our quest to make health care become all it should be. Since our company began, we have been committed to transformational change in the vital task of keeping people well. Now more than ever, our focus is on developing the innovations that will help improve the entire health care system. Ultimately, as our CEO Neal Patterson has said, "health care is personal." Because in the end, nothing matters more than our health and our families.

Applicants for U.S.-based positions with Cerner Corporation must be legally authorized to work in the United States. Verification of employment eligibility will be required at the time of hire. Visa sponsorship is not available for this position.

Cerner Corporation is proud to be an Equal Opportunity Employer and a drug-free workplace.

FULL TIME OPPORTUNITIES

Velocity Application Services Consultant

Program Overview:

The Velocity Application Services Consultant (ASC) training program is designed to help new associates develop the skills and capabilities necessary to be successful Cerner Consultants. During Consultant training associates will gain an understanding of Cerner solutions and will learn the fundamental components of solution build, maintenance and testing.

Responsibilities:

ASCs are primarily responsible for creating and maintaining professional relationships at the appropriate level between the Client and the Cerner project team members and effectively communicating status updates and project plans. They do this by understanding client work flows, designing test scripts to test for functionality after a code upgrade, testing, troubleshooting, issue management, defect tracking, client training, and go-live support. ASCs accomplish most of their deliverables by working with remote clients and participating in collaborative events in Kansas City. The position requires little to no travel.

Upon satisfactory completion of training, Velocity Application Services Consultants are typically placed in a Managed Services or Application Services organization based upon business need.

Minimum Qualifications:

- US Work Authorization Required
- Ability to travel up to 0-20%
- Relocation to Cerner's World Headquarters in the Kansas City metropolitan area
- Interest and/or experience in the healthcare industry preferred
- Educational background in Business, Technology, or Healthcare field preferred

Must meet at least one of the following education requirements

- 3.0 or higher cumulative GPA and Bachelor's degree from an accredited institution
- 2.8 or higher cumulative GPA and Bachelor's degree from an accredited institution with 1 or more years of professional and applicable experience
