University of Notre Dame
ESTEEM Program*

*We Are Committed to
Beating Those Odds*

Find Out How

Information Session

The Career Center Conference Room

Wednesday, February 26

12:00 pm - 1:00 pm

Featuring David Murphy

Associate Dean of Entrepreneurship & Director of the ESTEEM Program

Interested in biology and how it may translate into a future business? How about the advent of nanotechnology and its promise in pharmaceuticals? Passionate about the environment and the impact you can make promoting a cleaner more verdant future for generations to come? Then the ESTEEM Program is right for you.

The ESTEEM Program at the University of Notre Dame is an 11-month professional Master's Program with a focus on Entrepreneurship.

The ESTEEM Graduate Program was developed as a joint program of the College of Science, College of Engineering and Mendoza College of Business. It is designed to provide Science and Engineering graduates the skills required to take ideas all the way from concept to market.

Can't Make the Info Session? Look for David at a Table in the Student Union as Well!
