

This is what success looks like.

As a global leader in genomics, Illumina's innovative sequencing and array technologies are fueling groundbreaking advancements in life science research, translational and consumer genomics, and molecular diagnostics. At the most fundamental level, we are unlocking the power of the genome and enabling our customers to read and understand genetic variations. As a result, our work is triggering a fundamental shift in healthcare and beyond, and we have only just begun.

**Forge a path. Leave a legacy.
Be part of something bigger.**

There is no stronger foundation or limitless opportunity for your career than here at Illumina. Our impact lies at the intersection of life sciences, genomics and technology. Rewarding experiences, growth potential, and innovation are the benchmarks for an exceptional career, and we meet these criteria with flying colors. Here, you will work beyond what you thought was possible with a team that encourages you, inspires you, and values your contributions. It's your turn to pioneer the future, alongside best-in-field dedicated teams doing truly inspiring work, to determine where our industry goes next.
