

MPH & MSHA Programs

Fall 2019 Information Sessions

Come learn if a **Master of Public Health (MPH)** or **Master of Science in Health Administration (MSHA)** degree is right for you.
Open to students of all majors.

Both programs offer:

- Small, close-knit student cohorts
- Strong foundation of core courses and flexibility to choose electives from offerings throughout the campus
- Hands-on learning opportunities to gain real world skills in settings of the student's choosing
- Training for health-related careers in areas such as epidemiology, evaluation, health education, operational or clinical leadership program management, quality assurance, research, or consulting
- Access to public health and health care industry leaders

The MPH program offers degrees in Epidemiology* and Health Behavior & Promotion
