

Dr. Singh, MD (Orthopaedic Spine Surgeon and Professor of Orthopaedic Surgery at Rush University Medical Center) is searching for motivated pre-medical students to work full-time in the capacity of a research assistant. Our team will be composed of 2 clinical research coordinators/fellows, 2 research assistants, as well as Dr. Singh and his clinical staff. We are looking for hardworking, self-motivated, and honest people for this position.

**Position Title:** Clinical Research Assistant

**Available Positions:** 2

**Where:** Midwest Orthopaedics at Rush University Medical Center, Spine Service, Chicago, IL

**Duration:** 1 year - approximately mid-May 2025 to mid-May 2026

**Salary:** A stipend for transportation is provided; as such, we are looking for students who are local and/or have financial support available.

**The primary responsibilities of this position include:**

- Consenting patients for prospective studies and following up on survey results in clinic
- Collecting patient data in clinic or via review of electronic medical records
- Preparing and writing scientific manuscripts, abstracts, presentations, and posters
- Actively maintaining a detailed surgical database with patient information, clinical data, and postoperative outcomes
- Delivering weekly updates during research meetings
- Collaborating with Research Coordinators along with Surgeons, Fellows, Residents, Physician Assistants, and Medical Assistants

**The benefits of the position are the following:**

- Improve your CV/resume by co-authoring peer-reviewed publications, abstracts, posters, and presentations
- Opportunity to attend national orthopaedic/spine conferences
- Opportunity to shadow Dr. Singh and observe spinal surgeries
- Direct patient interactions in a clinical setting
- Flexibility with medical school interview season and valuable resources for interview preparation
- Opportunity to network with current research fellows (medical students) as well as past research fellows, orthopaedic residents, and spine fellows
- Learn how to effectively conduct clinical research
- Receive experience and guidance with preparing manuscripts for publication
- Almost all previous research assistants have successfully matriculated into medical school

Interested candidates should send a brief Cover Letter, CV/resume, and expected starting date to [spine.rush.research@gmail.com](mailto:spine.rush.research@gmail.com). Please include your first and last name and "Clinical Research Assistant" in the subject line.

**Deadline:** 11:59 P.M. March 31st, 2025

Applications will be reviewed and interviews will be offered on a rolling basis. For more information, contact: [spine.rush.research@gmail.com](mailto:spine.rush.research@gmail.com)
