

New Class for Spring 2008!

NRES 285

Community Stewardship through Environmental Education

*Apply what you learn to real world issues
and work with community partners to make a difference!*

- 📍 Get involved in a science-based service-learning course.
- 📍 Learn the latest research from guest scientists.
- 📍 Teach students (grades 5-10) about impacts of introduced species using an interactive and innovative Web site, www.sgnis.org/kids.
- 📍 Help students develop community stewardship projects to reduce spread of aquatic invaders.
- 📍 Be a part of UIUC's annual Environmental Horizons showcase.
