

Skeleton to "Leafy" Liverworts

Revised through 23 July 2012

Group L1 – Leaves with ciliate lobes or margins

Acrobolbus
Ascidiota
Barbilophozia

Blepharostoma
Porella†
Ptilidium

Telaranea
Trichocolea

Group L1

Group L2 – Leaves 3-4 lobed or toothed.

Barbilophozia
Bazzania
Chandonanthus
Diplophyllum†

Kurzia
Lepidozia
Lophozia†
Mastigophora

Plagiochila†
Pseudolepicolea
Scapania†
Tritomaria

Group L2

Group L3 – Leaves complicate-bilobed & "incubous"; underleaves large

Acrolejeunea
Ascidiota
Brachiolejeunea
Caudalejeunea
Ceratolejeunea
Cheilolejeunea
Crossotolejeunea
Diplaisiolejeunea

Drepanolejeunea
Frullania
Harpalejeunea
Hygrolejeunea
Jubula
Lejeunea
Leptolejeunea

Leucolejeunea
Lopholejeunea
Mastigolejeunea
Neurolejeunea
Porella
Rectolejeunea
Taxilejeunea

Group L3

Group L4 – Leaves complicate-bilobed & "incubous"; underleaves lacking

Cololejeunea

Pleurozia

Radula

Group L4

Group L5 – Leaves complicate-bilobed & "succubous"

Diplophyllum

Douinia

Scapania

Group L5

Group L6 – Leaves bilobed & succubous; underleaves large

Cladopodiella†
Geocalyx
Harpanthus

Lophocolea
Mesoptychia

Nardia†
Schofieldia

Group L6

Group L7 – Leaves bilobed; succubous; underleaves lacking

Acrobolbus
Anastrophyllum
Cephalozia

Chonecolea
Cladopodiella†
Cylindrocolea

Geocalyx
Gymnocolea
Lophozia

Group L7

Group L8 – Leaves bilobed with transverse insertion*

Anthelia
Cephaloziella
Eremonotus
Gymnomitrium

Herbertus
Hygrobiella
Marsupella

Nowellia
Pleurocladula
Sphenolobopsis

Group L8

*Lower leaves may show trend towards succubous insertion, except for *Herbertus*, which may show trend towards incubous insertion.

Group L9 – Leaves unlobed & incubous

Calypogeia

Metacalypogeia

Group L9

Group L10 – Leaves unlobed & succubous; underleaves large

Arnellia
Chiloscyphus
Gyrothyra

Leptoscyphus
Mesoptychia

Mylia
Nardia[†]

Group L10

Group L11 – Leaves unlobed & succubous; underleaves lacking

Anastrepta
Cryptocolea
Jamesoniella

Jungermannia
Odontoschisma

Pedinophyllum
Plagiochila

Group L11

Group L12 – Leaves unlobed with transverse insertion

Prasanthus

Group L12
